

NetworkBehaviour

```
classDiagram
    class NetworkBehaviour {
    }
    class DisableComponents {
        + OnNetworkSpawn()
    }
    DisableComponents --|> NetworkBehaviour
```

The diagram illustrates a class hierarchy. At the top is the 'NetworkBehaviour' class, represented by a white box with a black border and two empty internal compartments. Below it is the 'DisableComponents' class, represented by a grey box with a black border and two internal compartments. The bottom compartment of 'DisableComponents' contains the text '+ OnNetworkSpawn()'. A blue arrow with an open triangular head points from the top of 'DisableComponents' to the bottom of 'NetworkBehaviour', indicating that 'DisableComponents' inherits from 'NetworkBehaviour'.

DisableComponents

+ OnNetworkSpawn()
